

[VB-01LB-00](#), [VB-01LB-01](#)

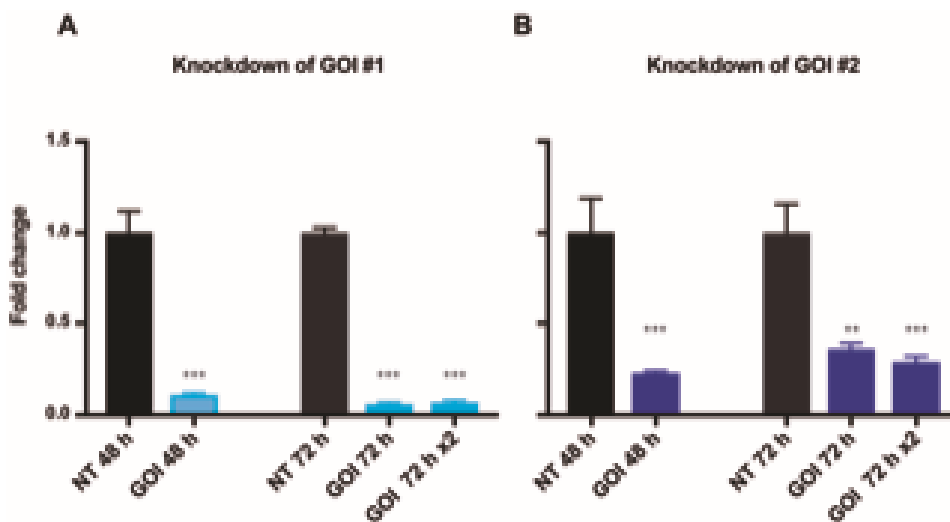

Fig. 1: Knockdown of GOI#1 (A) and GOI#2 (B) expression in human brain astrocytoma 1321N1 cells transfected with Viromer[®] BLUE
Non-target (NT), gene of interest (GOI), *p-value < 0.005, ***p-value < 0.001

- standard protocol (X1) used with no impact on cell viability
- X2 indicates that cells were treated with a second dose of siRNA after 24h
